

# P3TEC / advanced wall protection

Ultimate protection  
against **COVID-19**  
disinfectants

Bevel, Beveled Grass P3T-60240

In addition to superior impact and abrasion performance, **P3TEC Advanced Wall Protection** provides extreme chemical resistance, and is unaffected by repeated exposure to the harshest cleaning and disinfecting chemicals.

The EPA's list of disinfectants for use against SARS-CoV-2, the virus that causes Coronavirus, includes approximately 400 cleaning agents, recommended in differing concentrations and applications.

**P3TEC** protects against all disinfectants, undiluted or in any concentration, registering No Change when exposed to any chemicals, including:

- Chlorine Bleach
- Isopropyl Alcohol
- Hydrogen Peroxide
- Virex® (and all Quats)
- Lysol®
- CaviWipes®
- Glutaraldehyde
- Peroxyacetic Acid

Protect against the unexpected with **P3TEC** Advanced Wall Protection
